Dr. Hugh Flax, DDS PC  
1100 Lake Hearn Drive NE, Ste. 440  
Atlanta, GA 30342

Dear Dr. Flax:

What a joy it is to smile... and, to smile without covering my mouth in embarrassment!  
The only thing I have to do now is break the "mouth-covering" habit.

I can't believe I held off from doing this for almost a decade for the results have been life altering for me. While folks may not know exactly what has happened to me (although I find many friends and colleagues looking at me in a slightly curious sort of manner, which makes me smile even more) this transformation has made a liberating difference in my confidence and attitude. Again, what a joy it is to now smile!

I want to thank you and your staff for your expertise and care in transforming my smile. I felt comfortable from day one and well informed about the process even though I was so tentative about making the plunge in correcting my bite and improving my smile. And, to the artist who created my new smile... I had no idea such craftsmanship was possible with porcelain. Thank you!

With gratitude and warm regards,

Bonnie
